

COVID-19: Additional safety information for Flood Wardens

- Always Check the latest Government/PHE Guidance
 - <https://www.gov.uk/coronavirus>
 - <https://www.legislation.gov.uk/ukxi/2020/129/contents/made>
- The saving of lives and reducing harm takes priority
- Do Not deploy if you are:
 - Suffering from COVID-19 or any of the symptoms
 - Are part of the shielded community
 - Have been told to self isolate
 - If anyone you are living with is in one of the above categories
 - If you feel at all vulnerable
- Your Safety
 - What additional PPE should you be wearing - if any?
 - Employ social distancing

- Additional PPE
 - It is recommended that all Flood Wardens wear a **Face Covering** whilst carrying out their duties
 - **Gloves** should be available for the physical passing of information between Flood Wardens, members of the public, the emergency services or local authority
 - The carrying of **Hand Sanitiser** is recommended for all Flood Wardens
- Remember it's about Protecting
 - Yourself, your families and your colleagues
 - The emergency response community
 - And above all - members of the public

- During your door knocking you may be asked to assist the emergency response community in identifying the current COVID-19 situation within the household
- **Only** if requested the following 3 questions should be asked
 - Do you have a fever?
 - Do you have a new persistent cough?
 - Have you recently lost your sense of taste or smell?
- How evacuees respond will determine if they are:
 - Symptomatic or Asymptomatic
 - You can then ask if they are Shielding or Self Isolating
